

What We Do

At Aeroflow Urology, we make it easy for healthcare professionals to provide patients with the highest quality supplies and unparalleled customer service.

Adults covered by Medicaid may be able to receive high-quality incontinence supplies at no cost through their insurance benefits.

I have been so ashamed with leakage problems over the years, but now that I found you, I am no longer ashamed. Now I go everywhere with my head held high. Thank you so much.

How to Refer Patients for Free Incontinence Supplies

1 Fill Out an Order Form

To qualify, patients need to have a primary or secondary Medicaid policy, along with a supporting diagnosis. For pediatric patients, Medicaid guidelines require a secondary diagnosis that is causing the patient's incontinence to cover supplies.

2 Fax Order Form

To 800-831-2454 along with patient demographics, chart notes, and their insurance card and information.

3 We Take Care of the Rest
